RoHS and REACH Declaration

RoHS2

„Restriction of Hazardous Substances“

The directive 2011/65/EU (RoHS 2) of the European Parliament on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Lead (Pb), Cadmium (Cd), Hexavalentes Chrome (CrV1), polybromated biphenyl (PBB), polybrominated diphenyl ethers (PBDE), Deca-BDE, mercury (Hg). (maxi. 0,01 percent by weight Cadmium and max. 0,1 (each) percent by weight lead, mercury, hexavalent chromium, PBB and PBDE). Due to the fact that these substances could not be completely banned they set a limit (max. 0,01 percent by weight Cadmium and max. 0,1 (each) percent by weight lead, mercury, hexavalent chromium, PBB and PBDE).

Restricted substances from 22nd. July 2019 acc. directive (EU) 2015/863

Di(2-ethylhexyl)phthalate (DEHP) (0,1%), Butylbenzylphthalate (BBP) (0,1%), Dibutylphthalate (DBP) (0,1 %), Diisobutylphthalate (DIBP) (0,1%).

We confirm that all products supplied to you are in accordance with the EU directive 2011/65/EU (RoHS 2).

REACH – updated 17.01.2018

The new chemicals regulation (EC)1907/2006, called REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), came into effect on June 1, 2007.

We, as distributor for electrical insulation materials are – in the sense of Reach – they are so called „downstream users“. The products we supply to you are solely non-chemical products (goods), except the following

- **Tech Spray** – cleaner for electronics and soldering masks.
Products are pre-registered by the manufacturer or an authorized 3rd party.
- **Superior** - flux. Direct import from the US.
but in an amount per anno less than 1t of the affected substance. No pre-registration applicable.
- **Fortafix** – Ceramic Cement
All necessary steps are under the control/responsibility of the european manufacturer.

Moreover and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substance. For that, we are neither obligatory for registration nor for the creation of MSDS (except the a.m. products).

Furthermore, we will immediately inform you in correspondence to Reach Article 33 if any substance of content (as from a content of >0,1%) in our goods will be classified alarming by the European Agency for Chemicals ECHA. Based on the current status, however, we do not expect such an incidence.

Independent of that fact, we are intensively pursuing the realisation of Reach on the part of our supplies in order to guarantee a high level product safety for our customers.

We confirm that all products supplied to you are in accordance with the directive 1907/2006 (REACH) updated July 2017.
